

I was lucky enough to attend the best “Handwriting” annual conference in September 2008 in Las Vegas! As a staff member of the Handwriting University, I was responsible for coordinating the speakers.

Kristina definitely stood out from all the speakers. She was very organized and easy to work with from the beginning. She was warm, flexible and popular with everyone. I heard lots of positive feedback about her class from students.

I didn't know anything about face-reading, so I was curious about the topic. I was amazed at her depth of knowledge. She provided a lot of in-depth information in a practical, engaging, easy-to-understand way. I left the class with a lot of information which I continue to use daily. Attending her class has helped me to discover what each facial feature means and I have learnt to understand people rapidly with more depth.

If you're looking for an unusual, interesting topic and a dynamic speaker, I highly recommend Kristina for any event. She is THE authority on face reading!

A handwritten signature in black ink that reads "Yogini Vashi". The signature is fluid and cursive, with a long horizontal line extending from the end of the name.

Yogini Vashi, Staff member at Handwriting University
